FEDERAL COURTHOUSE AND POST-OFFICE.—As there seems to be considerable interest manifested in regard to the character of the new Federal Courthouse and Postoffice in this city, we have taken pains to ascertain the present status of the matter.

"Work has been commenced upon the public building at Raleigh, N. C. It has, however, been found extremely difficult to procure either material or labor at reasonable rates, and as a consequence, very little progress has been made. Negotiations are, however, in progress that warrant the belief that these difficulties will be overcome, and that good progress will be made during the coming season. The building will be 116 feet by 63 feet, three stories in height, and will be constructed of pressed brick with

On learning this, Col. Carrow, Superintendent of the proposed building, wrote to Hon. W. A. Smith to urge that stone be used in its construction instead of brick; and the Legislature adopted and had transmitted to our Congressmen to the same end, as will be seen from the following:

It may perhaps be proper for me to add that I do not wish to build a brick building, but would greatly prefer to erect such a building as would be gratifying to your citizens and a matter of pride to myself. It is, how-ever, impossible for me to erect a good cut stone building with the present appropriation, of which I can very readily convince you. This is a matter, however, in regard to which no immediate decision is necessary and

North Carolina in regard to the protion of the General Assembly of posed Government building at Raleigh, requesting and recommending the erection of the proposed Government building in that city of stone, instead of brick and stone, as proposed by the Department.

eral Assembly is mistaken in supposing that the Architect desires to erect a brick and stone building. It is, however, impossible to comply with the request of the General Assembly with the present restrictions on the cost of the structure.

Should Congress authorize the expenditure of such a sum as the erection of a cut stone building would require, the Department would take great pleasure in complying with the request of the General Assembly.

AN AWFUL OCCURRENCE-DEATH IN A BAR ROOM.—On yesterday afternoon, about 2 o'clock, Richard Moss came into the barroom of James Baker, on Wilmington street, badly under the influence of liquor. After staggering about the room for a while he fell upon the floor, and was soon in a deep sleep. Efforts were made to arouse him but failed, and Baker, the proprietor, not liking to see him exposed to public view removed him to a rear room and placed him in a comfortable position and left, supposing that he would soon sleep off the effects of his potations. About dark the room was again visited to see how he came on, when the awful discovery was made that the unfortunate man was dead. Moss was quite a young man, probably not more than 30 years of age, and was quite well known in this community, having served for some time as a member of the city police force. We are not positively acquainted with the habits of the deceased, but are of the im-pression that he has been, of late, ad-

South Carolina is spoken of by a whilom abolitionist as "a moral merass, in which there is neither standing nor holding ground." He ascribes this condition of that hapless State to the genuine negroes who control public affairs there. They have overwhelmed the whites, and the writer says they "intend in due time to drive out the mulattoes."

The GRANT Administration a year or two ago claimed to be paying off the public debt at the rate of \$100,-000,000 per annum, and the whole debt of the country was said to be rapidly diminishing. The debt was increased in December \$8,453,292.71, while the treasury is empty and the Secretary is calling for fifty millions more. What can the matter be?

What is the amount of the debt of the city of Raleigh? How much of it is funded? How much of it is floating? The citizens of Raleigh would like to have these questions answered.

THE Californians have evidently gotten enough of the heathen Chinee. Congress is to be memorialized to amend its treaty with China so as to prevent further Chinese immigration. As the Californians have given this class of labor a thorough trial, we suppose this explodes the idea of cheap Chinese labor.

Raleigh as a Cotton Market-Wants of the Trade-A Cotton Warehouse-A Cotton Exchange.

Raleigh will reach thirty thousand bales in the cotton trade this season. From nothing, our city ranks among the first in the scale as a local market; indeed, taking into account the amount of cotton actually sold here, and the prices obtained-always within the narrowest margin of the New York quotations-we doubt if any market in the State can make the exhibit Raleigh is now making.

This growth of business and prosperity of trade is due entirely and exclusively to the active merchants and enterprising business men of our city.

It is a matter of certainty-a fact cotton planters throughout this belt of country appreciate and rejoice atthat the development of business will still go on until Raleigh shall more than double and treble her present commercial proportions in cotton

transactions. Then his present and prospective trade must be accommodated. The facilities for business must be afforded our live and energetic business men. The matter is one that does not simply concern dealers alone. Every man who produces cotton within reach of Raleigh is directly concerned. The agricultural interests of a large and important section of the State are involved. Hence the subject we are on is one of vital importance to the public.

The Legislature ought to cede to the city of Raleigh the square known as the Baptist Grove. On this ground should be erected a large cotton warehouse, Mr. Williams said there was no foun- JANUARY 8d, 1874.

sufficient to accommodate, at all times, the cottton trade of Raleigh. Here would be the amplest and fullest facilities for the safe and secure storing of all the cotton that may at

any time find its way to our market. As at present our streets are blockaded with cotton bales from the beginning to the end of the cotton season, which is not only a serious inconvenience to the cotton trade and a damage to the cotton, but a most intolerable nuisance to citizens and visitors.

Our merchants would all doubtless like to have a general cotton warehouse on Baptist Grove, which would tend to concentrate the cotton business of the city, and enable the merchants to establish a permanent and effective Cotton Exchange.

We are confident that something practical will soon be attempted in the direction we have indicated, and we call upon our merchants and business men for their views on the matter we have attempted to treat of

THE Granges of the West, says the Baltimore Gazette, are gradually forming themselves into co-operative associations. It is done in a clumsy manner; but, in time, if the benefits justify it, a more thorough organization will undoubtedly be effected. The Iowa State Grange, for instance, has bought the entire patent of the Werner Harvester. They propose to manufacture it themselves, and sell it for one hundred and forty dollars. The estimate of eighteen hundred reapers to supply the demand is very low, however, the Champion, Kirby, and others of Baltimore sending out from twelve to fiteten thousand reapers yearly each. The Grangers will have to do better than they propose, or they will have very little effect on the supply. They have entered into an agreement with sewing-machine owners also by which they will save at least forty per cent. In various other ways they are beginning the experiments which in England have led to the establishment of the immense co-operative stores at Roch-

Mr. Williams Does Not Want the

Chief Justiceship-Cause Why? The telegraph yesterday morning announced the withdrawal of Mr. WILLIAMS' name by the President for the Chief Justiceship, but the following from the National Repubvican of Thursday morning fully explains the conclusion of this vexed question in so far as WIL-LIAMS' name is concerned:

Attorney General Williams called upon the President last evening and handed him a letter requesting the withdrawal of his nomination for Chief Justice of the United States.

This action was so unexpected, in view of the Attorney General's decision Tuesday, to fight the matter out, that a representative of the Re-publican called upon him last night, and in an extended conversation obtained the following information:

During yesterday Mr. Williams had been thinking of the matter, and decided that, as the nomination met with decided opposition from some prominent Republican Senators whom he had believed would support him, and knowing that while these opponents had urged the President to withdraw the nomination the latter would not do so of his own accord, he requested such action to remove all embarrassment from the Presi-

The way matters stood, prominent Republican Senators were arrayed against each other on the question, and the Judiciary Committee were controlled by the opposing elements. They might keep the nomination in abeyance for months, as in the case of the late Chief Justice Taney, and he was wearied by the position he was placed in. His hands were tied and his mouth closed, while the continual suspense was vexations and

He had reason to know that the President intended to sustain the nomination, but preferred to release him from the anomalous position of upholding a nomination that resulted in placing prominent leaders of the party which elected him in violent

rsonal antagonism. Upon being told that a rumor was in circulation that he would retire from the Cabinet, and would be tendered an important foreign mission,

dation watever for the story. He did not intend to withdraw from the Cabinet, and he had very good reason to believe that President Grant did not desire it. He had no idea that a foreign mission would be offered him, and further, he had no desire for anything of the kind, and would not accept if one was offered him.

In reply to the inquiry whether he had any idea who would be nominated in his place, Mr. Williams said he had not, and, replying to a further question, said it would certainly not be ex-Attorney General Evarts. This bringing to mind the other members of the counsel for the United States at Geneva, Mr. Williams said that he had heard the name of Mr. Waite, of Ohio, mentioned favorably in connection with the appointment, but it was impossible for him to hazard an opinion to who would be nominated. In view of Mr. Williams remaining in his present position, the President will also withdraw the nomination of Hon. B. H. Bristow to be Attorney

To the Farmers and Guano Dealers of North Carolina and Virginia:

Gentlemen: To the mary of you with whom I am personally acquainted, I would say, that of good results from GUANAHANI GUANO, I have not the shadow of a doubt. Containing, as it does, in such large amounts, the essentials for plant food, success from its application would seem certain. It being of animal origin, you will see at once that its ingredients must be all scluble in the soil. Its nitrogen, from nitric acid, is the most available form known to chemistry; the other part, from undecomposed animal matter, is preferable to the vocatile salts in Peruvian Guano. I ask of each of you the kindness of a thorough examination of the accompanying analyses by two of the great chemists of the country. With respect, yours truly,

THE COMPANY GUARANTEES THAT EVERY CARGO WILL BE ANALYZED BEFORE IT IS OFFERED FOR SALE.

KERR, STATE GEOLOGIST OF NORTH CAROLINA: Raleigh, N. C., January 7th, 1871. Wm. R. Griffith, Esq., General Agent Guanahani Guano Company, Peters-

burg, Virginia:
Dear Sir: Dr. F. A. Genth, whose Analysis of the Guanahani Guano you have shown me is Chemical Minerologist to the Geological Survey, and has no superior as a chemist. I have no hesitation in endorsing any analysis from his laboratory. And I think the analysis justifies his statement that the substance examined by him is a VALUABLE MANURE. MANURE.

From his report, and that of Prof. Wilson, it is evidently a TRUE GUANO, both in origin and composition, and its action on crops may be expected to be the same in kind and in degree, proportion to its relative per centage of the valuable ingredients—Phosphoric Acid, Ammonia and Potash, that of the first being unusually high.

Yours truly, W. C. KERR, State Geologist.

CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street,

Baltimore, December 1st, 1873.

Maj. N. M. Tannor, President Guanahani Gwano Company, Petersburg, Va.:

Dear Sir: I have drawn samples of the Guano, as it has arrived in cargo lots, and find it ex eedingly uniform in the amount of Phosphoric Acid it contains, namely, from 15 to 19 per cent. This is combined with Lime, and is of animal origin, and readily assimilable by plants. It contains potential ammonia and nitric acid, having a combined Nitrogen value equal to from 2 to 3 per cent, of ammonia, with the alkalies Potash and So is, and valuable proportions of Sulphate of Lime. The whole forming a very desirable combination for all crops, and when applied to land, the crop receiving proper tillage, must, in my opinion, give as good results as any guano offered to the farmer.

Being of animal origin, the organtic matter has undergone partial decomposition, and it necessarily contains a valuable amount of Humus, which makes its fertilizing power much greater than fertilizers which are compounded large y of Peruvian Guano, which, beyond its ammonia and small phosphatic value, has little or no power in absorbing from the atmosphere and retaining in the soil the movable elements absorbed by moisture and breught down by the rains, as the guano you are now placing upon the market. All of the components of this Guano are very soluble in the soil, and possess such physical properties as to render it at all times and ut der all circumstances as in mediately available plant food.

The late samples you sent me for analysis, from the deposit which you inform meyou

you sent me for analysis, from the deposit which you inform me you The late samples you sent me for analysis, from the deposit which you inform meyou intend to ship from, show a dec ease in the phosphatic value, but a large increase in its nitroges compounds. I think, however, from previous observations of cargoes, that you may reasonably expect, that cargoes taken from where these samples were drawn, will materially improved in the saline compounds, (phosphates alkaliss and magnesia.

DEAR SIR: In compliance with your request, I have snall zed sample of "Gusnahani Guano," and have made additional exact a nation of an average sample from a lot of 300 tons, the result of which, I beg to embrace in the following. The Guano is a brownish powder, with lumps of combinations of time with Carbonic, Phosphoric and Nitric acids, It contains a consider rable quantity of water about 20 per cent.), and when dried is a paler brown powder. The Guano is evidently of animal origin, and the minute bones, which were discovered in the same, indicate that it is the result of the decay of bats, mice, &c. The quantity of organic matter, which is still present, is about 12 per cent., and this yields about 2½ per cent, of animonia. A portion of the nitrogen is present, and this yields about 3½ per cent, of animonia. A portion of the nitrogen is present, as nitric acid, of which about 3 per cent, wa faind. All the nitrogen present would be equivalent to about 3½ per cent, of ammonia. The phosphoric acid in the Guano's about 12½ per cent, equal to 273 per cent, of bone phosphoric acid in the Guano's about 12½ per cent, equal to 273 per cent, of bone phosphoric acid in the Guano's about 12½ per cent, equal to 273 per cent, of bone phosphoric acid in the Guano's about 12½ per cent, equal to 273 per cent, of bone phosphoric acid in the Guano's about 12½ per cent, equal to 273 per cent, of bone phosphoric acid in the Guano's about 12½ per cent, equal to 273 per cent, of bone phosphoric acid in the Guano's about 12½ per cent, equal to 273 per cent, of bone phosphoric acid in the Guano's about 12½ per cent, equal to 273 per cent, of bone phosphoric acid in the Guano's about 12½ per cent, equal to 273 per cent, of bone phosphoric acid in the Guano's about 12½ per cent, equal to 273 per cent, of ammonia. pleasure of a visit from you, soon,
I am, truly yours,

I am, truly yours, W. H. B. DORSEY P. S.-I have commenced making a stir for the Spring trade.

San Marino, Dinwiddie Co., Va., November 18th, 1873.

W. R. Griffith, Esq.,

Dear Sir: Yours of the 12th inst., was re eived on yesterday, and, in compliance with your request, I hasten to reply. I purchased half ton of Guanahani Gua o, from Messis, Rowlett & Tannor, 1st of October, 1873, to use upon my wheat crop, as an experiment. I applied it 200 lbs. per acre. The wheat was seeded from the 10th to the 17th of October I applied it 200 lbs. per acre. The wheat was seeded from the 10th to the 17th of October I applied in the application, leaving two strips of land through the field; one of was very careful in the application, leaving two strips of land through the field; one of an acre, the other two acres. The one acrestrip was manured with \*\*\* \*Phosphate. The two acrestrip was in tobacco, heavily manured with stable manure and \*\* \* \* \* \* Tobacco Fertilizer. I also added a strip of very poor land (stubble) on one end, three-fifths of an acre. Upon this I applied 100 lbs. of Guanahani, and also moistened the wheat and rolled it in the Guano. (I mean the wheat sown upon this three fittess rip.) The season has been favorable, and the young wheat is looking very well; and the 1 upon the narrow strip of poor land, equally as good as upon the heavily manured to bacco land. I am satisfied that the Guano is acting upon this strip of wheat, as the land was very poor. I do not think that it would be well for me to make a positive assection just yet, bu will carefully note the result and let you hear from me again.

Yours respectfully.

THOS, F. RIVES. San Marino, Dinwiddie Co., Va., November 15th, 1873.

J. N. WINFIELD.

Millstone Landing, Md., December 1st, 1873,

Kingston, Dinwiddle Co., Va. November 26th, 1874, Messrs, Rowlett & Tannor.

Dear Sirs: In reply to your inquirles in regard to the Guanahani Guano, which I purchased last summer, I can only say that I applied it on my wheat crop, sowing it to adcast and plowed it in with the wheat. So far, I am vary much pleased with the Guano. Where I used it, the wheat looks better than any I have seen, and my neighbo s who have seen it, consider it so. I applied it the first of October, and it shows very plain I over the wheat where there was nothing used.

Yery respectfully.

Very respectfully, JOHN J. MITCHELL. [Note .- Mr. Mitchell has since ordered 10 tons for his Spring crops ]

Very respectfully, ELKAVAH WISE.

Dinwiddie County, Va., November 21st, 1873. Messrs, McLlwaine & Co., Petersburg, Va., Gentlemen: I used the Guanahani Guano, purchased of you, on wheat at the rate of 300 lbs. per acre, on corn land. The wheat is looking well. I think it will prove a good fertiliz r. Respectfully,

Sussex County, Va., December 17th, 1875.

Messrs Rowlett & Tannok, Petersburg, Va.,

Dear Sirs: I used on my wheat, sowed about the 1st of October, a half ton of Guanahani Guano, and sefar I am very much pleased with its action. Where I used the Guanahani the wheat is look ng remarkably well—a great deal better than the wheat Sussex County, Va., December 12th, 1873. Very respectfully,

Prince George County, Va., December 16th, 1873. Messrs. Bisnop & Branch, Sirs: You ask me my opinion of the Guanshani Guano I purchased of you last fall. I used the guano on my wheat, but owing to the unfavorable fail for the growth of wheat, it would be impossible for any manure to show its strength fully. However, it think the guan on good fertilizer, from the fact, that the wheat looks as well as it does where a well known fertilizer was used that cost nearly double the money.

Respectfully. A. G. JOPDAN Petersburg, Va., December 16th, 1873. Petersburg. Va., December 16th, 1873.

WM. R. Griffiih, General Agent of the Guanahani Guano Company,

Dear Sir: In reply to your enquiry about the action of the Guanahani Guano on my
wheat crop, I would say, up to the present time it is looking very well.

Yours truly,

SAMUEL H. JONES,

Frince George County, Va. Mr. E. A. DUNLAP,
Dear Sir: I left one row without your fertilizer, and used it on the next row. I used at the rate of 200 pounds to the acre. I had the corn care ully gathered separate, and found the result as follows: From the Guano row I shelled one bushel and nearly a half gailon; from the row without guano I got a half bushel at d not quite a quart; making fully double where I used guano. The growth of stalk was not proportionately heavy—the strength seemed to go to the grain. I think it an excellent Spring fertilizer. The land I tried it on was quite thin.

Yours, &c., Broad Run Station, Fauquier County, Va., December 4th, 1873.

A. D & MITH. Poplar Mount, Greensville County, Va., December 17th, 1873. Mesers. ROWLETT & TANNER Gentlemen: Yours of the 15th is received. You ask "How I like the Guanahani Guano, so far?" Guano, so far?"

In reply I have to say that I used five bags last fall, experimentally. I applied four bags to wheat at the rate of 200 pounds to the acre. I used the same quantity (20) pounds, on winter oats. The wheat was not sown until about the 20 h of October, but has already a healthy, vigorous blade. The present indications lead me to believe that it is decidedly superior to any of the sup-r-phosphates.

The winter oats we e sown the last of September. In the application to this crop, thave, in consequence of earlier seeding, a better opportunity of observing the effect of the Guanahani Guano. Here it is most marked and decided. It reminds me of former days, when, for a moderate outlay of money, the farmer purchased the pure Chincha Island. (unadulterated) Peruvian Guano.

I wish to try some of this Guano next year on cotton and tobacco.

I am, very truly yours,

GEORGE W. FIEL!

GEORGE W. FIFL' . The Company recommend an application of from 200 to 250 pounds per acre, but not over the larger amount.

As it will be impossible to bring but few thousand tons to this country in time for the spring irade, orders must be sent at an early day to secure it.

Jay Cooke & Co. ys. the United States--Revenue Swindler--Rail-road Bond Forger Arrested. NEW YORK, Jan. 9 .- In the case of the United States Government vs. Jay Cooke & Co., to recover \$18,730 of coupon bonds with interest amounting in all to \$25,580,50 which were presented to the Assistant Treasurer in this city by Jay Cooke & Co., the said bonds being afterwards declared count reit and a decision given for the government. A writ of error was taken out by Jay Cooke & Co., to-day and Judge Woodward, in the United States Circuit Court, heard the case, and reserved

his decision. Geo. W. Smith, Deputy Collector of Internal Revenue for the Northern District of Mississippi, is indicted on the charne of embezzling twenty-five thousand dollars of government money, and is under arrest in this city, and will be taken in a day or

two to Mississippi.

A cable dispatch states that Stephen Raymond, the fugitive forger of the New York Central Railway band notoriety, has been arrested in London, and is held for extradition.

### FROM WASHINGTON. Government Finances-Relief of the

Treasury Necessary. WASHINGTON, Jan. 9th .- The re ceipts from Customs are so variable as to afford no data at present on which to base hopeful calculations concerning the future. It is, how-ever, supposed at the Treasury Department that in about ten days the receipts will be more uniform.

The Commissioner of Internal Revenue is much encouraged by the receipts of his bureau. So far for this month, they are three million dollars and the prospect is that they will soon be restored to what they were before the late panic, thus fulfilling his calculation of one hundred

million annually. Several of the members of the Appropriation Committee think that the estimates will be cut down about ten millions, but that this will not be sufficient to bring the expenditures of the government within the receipts from all sources for the next fiscal year, therefore, some measure of Treasury relief will be necessary. As to what this shall be there is at present no indication. Congress, however, will not hastily act on the subject.

# FOREIGN.

Trouble in the French Cabinet— The Ministers Resign---Changes in the Spanish Foreign Ministers.

Paris, Jan. 9.—The Journal officially announces that the members of the Cabinet have resigned in consequence of the absence from the Assembly yesterday of a large number of their supporters, which resulted in defeat of the government. President McMahon begs the Ministers not to retire but to await the vote of confidence which will be passed by the Assembly to-day.

MADRID, Jan. 9.—The government of Spain will make many changes in its representatives abroad, but Admiral Polo De Bernabe, Minister at Washington, will remain there. The Government continues to receive congratulatory telegrams from all quarters, especially from Cuba.

Paris, Jan. 9.—The Figure says that members of the Cabinet have tendered their resignations, but President MacMahon is endeavoring to persuade them to remain in the Goy-

London, Jan. 9.-Special dispatches from Paris to the London morning journals, state that a vote in the Assembly yesterday, on the bill in relation to the appointment of a Mayor by the Government is not regarded as important. A vote of confidence in the Government will be asked at the session to-day, and it is certain to be carried.

### The Chief Justiceship-No Nomination Yet Made.

Washington, Jan. 9.—The names of several gentlemen are publicly mentioned in connection with the Chief Justiceship, including those of Senators Morton and Howe. The former more prominently, but up to noon nothing could be obtained in official quarters concerning the subject, which may be a matter of Cabinet advisement to-day.

# Congressional.

WASHINGTON, January 9 .- The Senate has under consideration a bill to allow the national banks deciding to reduce their capital stock to withdraw a proportion of their bonds, upon returning their own circulating notes or depositing lawful money in the Treasury.

The House is hearing reports from the Committee on Claims.
